IBEX® ULTRASOUND COMPARISON

Family	EVO	PRO	LITE
--------	-----	-----	------

SUMMARY	EVO	PRO	LITE
	<p>EVO Best option for equine, companion animal, and advanced imaging such as OPU/TVA. Interchangeable transducers.</p> <p>With excellent resolution, ruggedness, WiFi streaming, and headset compatibility, EVO is the ultimate in versatility. An ideal mixed practice ultrasound.</p>	<p>Same software and hardware platform as the LITE, with the added versatility of a flip-up monitor and keyboard. The PRO line is compatible with our goggle headsets for waist-worn functionality when the lid is closed.</p> <p>PRO Compact and rugged with a long battery life, the PRO is ideally suited to bovine and equine reproduction or a mixed large animal practice. Interchangeable transducers.</p> <p>PRO/r Permanently attached to the new, high-def L7HD linear rectal probe, making it a great choice for dairy and equine repro.</p> <p>PRO/c Permanently attached to the new, high-def CLi4HD curved rectal probe, making it a great fit for beef, camelid, and small ruminant work.</p>	<p>Screenless, waist-worn models, using goggle headsets or WiFi streaming for image viewing. The lightest weight and longest battery life.</p> <p>LITE Perfectly suited for long dairy herd checks or fast-moving chute work. Interchangeable transducers.</p> <p>SuperLite A dairy powerhouse, permanently attached to the new, high-def L7HD linear rectal probe.</p> <p>SuperLite/c The ultimate in streamlined portability for beef cows with the depth of penetration of the permanently attached new, high-def CLi4HD.</p> <p>SuperLite/ls Permanently attached to the CL3E transabdominal probe—a great choice for swine, small ruminants, or camelids.</p>
