

GVL

Peace of Mind Software for Veterinarians

LARGE & FOOD ANIMAL

GVL® provides animal health practitioners with unique, web-based software solutions for digital health certificates, prescriptions, diagnostic results interpretation, Veterinary Feed Directives (VFDs), Equine Infectious Anemia (EIA) tests, client communications and more.

Thousands of veterinarians save time with GVL, reducing errors and compliance issues, retaining client information and records in a searchable account, and providing clients with online access to their documents.

Digital Health Certificates

- Approved for use in all U.S. states
- Auto-fill client and animal information
- Built-in state movement requirements
- Immediate submission to state officials
- New six-month equine health certificate option

Veterinary Prescriptions

- Clear, simplified instructions for clients
- Supports Vet-Client-Patient Relationship
- All common medications included
- Streamlined fulfillment and tracking

Veterinary Feed Directives (VFDs)

- Helps ensure accurate and complete VFDs
- Complies with two-year record retention
- Streamlines communication and treatment

Equine Infectious Anemia (EIA) Tests

- Digitally submit to EIA (Coggins) labs
- Batch sign and send certificates
- Receive results in real-time
- Easy digital horse photo upload

MyVetLink Animal Owner Account

- Grant clients access to their certificates
- Online account and app provide 24/7 access
- Messaging feature for two-way communication

"VFDs in GVL are quick and easy, we never have an issue. We tried paper and it takes forever. GVL saves us so many steps and the doctor can do it right from his phone when he's in the field working cattle."

Take advantage of value-added services.

Interstate Movement Requirement Search

Our free, public website, AnimalRegs.com, helps users find interstate movement requirements that are validated by state animal health officials.

Built-in Regulations and Accuracy Check

Unique GVL SmartEngine technology automatically checks certificates for accuracy, ensuring final documents are compliant with requirements.

Find-A-Vet Website Search Tool

Anyone can use our free Find-A-Vet site to quickly locate and contact a veterinarian near them who offers the services they need.

See your swine veterinary diagnostic results in a whole new way with GVL®.

Veterinary Diagnostics Reporting

- Diagnostics from multiple labs in one place
- Organize data and track pathogen prevalence
- Analyze, visualize and interpret results
- Transmits data into Disease BioPortal®
- Share findings and proposed actions
