

# INSIDE DIAMOND V

## A Leading Global Animal Health Company

### AT A GLANCE

**GLOBAL HEADQUARTERS:** Cedar Rapids, Iowa, USA

**GLOBAL MANAGING DIRECTOR:** Mike Johnson

**FOUNDED:** 1943

**MARKETS:** More than 70 countries

**OUR PURPOSE:** To help animals do better so producers are more successful and food is safer, and to help people live more healthy days.

**OUR VISION:** Diamond V will be the world leader in delivering natural, science-based, sustainable postbiotic feed additives that improve animal health, protect the environment, support pre-harvest food safety, and advance public health.

#### OUR EXPERTISE:

<b>Fermentation</b>	Proprietary anaerobic fermentation technology that creates unique natural immune support postbiotics with multiple benefits.
<b>Technical</b>	Trusted team of experts transferring science-based knowledge and building relationships that result in trusted, enduring partnerships.
<b>Research</b>	Every product thoroughly tested and validated with controlled research, including more than 425 controlled research studies and 120 peer-reviewed publications.

We manufacture natural\* immune support postbiotic feed additives that enhance animal health and performance, and support pre-harvest food safety worldwide.

### LEADING THE SCIENCE OF MICROBIAL FERMENTATION

Diamond V's global team of scientists, research technicians, and field experts constantly discover new opportunities to improve animal health, well-being, and performance.

Our team conducts scientific studies in all major livestock, poultry, aquaculture, pet, and companion animal species. We work with leading universities and numerous independent research organizations around the world.

Collaborating with partner companies and customers, we advance science, technology, and successful businesses for safe, sustainable, food production and animal health worldwide.

\* As defined by AAFCO (Association of American Feed Control Officials)
