

UNIQUE TECHNOLOGY

Quality
and Value.

1

Key Benefits

Our products **empower the immune system** to naturally*:

- Optimize animal health & well-being
- Enhance production efficiency
- Promote pre-harvest food safety
- Support antibiotic stewardship

2

Fermentation-Based Products

Our **immune health products** are created using a proprietary fermentation technology, inspired by nature and refined over more than 75 years.

6

Stable and Reliable

Our products are **manufactured in the USA** and are stable from the date of manufacture to feeding – their efficacy is not compromised by extreme temperature, pH, processing, or storage conditions commonly associated in feed or pet food manufacture.

INSIDE Our Science & Technology

3

Novel Bioactive Compounds

Every product has its own unique profile consisting of **numerous bioactive compounds**. This complexity makes Diamond V products very different from single-compound type products.

5

Science-Based

All Diamond V products are **thoroughly tested and validated** with controlled research, including more than 425 controlled research studies and 120 peer-reviewed publications.

4

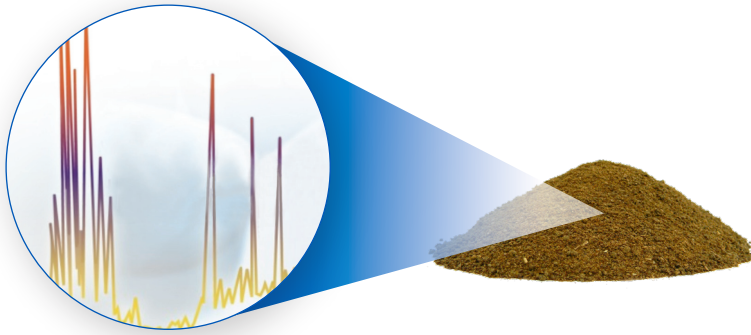

Immune Strength for Life

Extensive research shows the bioactive compounds in our products **work naturally with the biology** of the animal, maintaining immune strength and promoting digestive health in many beneficial ways – in every stage of life.

NOVEL BIOACTIVE COMPOUNDS

Every product has its own unique profile consisting of numerous bioactive compounds.

IMMUNE STRENGTH FOR LIFE

Research shows Diamond V postbiotics have a dual-action effect, supporting both immune function and digestive health. The bioactive compounds in our feed additives work naturally with the biology of the animal to maintain immune strength, support gut integrity, and promote a healthy microbial balance.

Every day use provides Immune Strength for Life.

IMMUNE SUPPORT – POSTBIOTIC FEED ADDITIVES FOR EVERY SPECIES

* As defined by AAFCO (Association of American Feed Control Officials)
