# Vista<sup>®</sup> once PROTECTS 86 DAYS LONGER THAN Bovi-Shield Gold One Shot.<sup>®1</sup>

## NO OTHER PRODUCT CAN MATCH THE PROVEN DURATION OF **VISTA<sup>®</sup> ONCE<sup>1,2</sup>**.

Vista Once, Vista 5, and Vista 3 vaccines demonstrate protection for 365 days against IBR and BVD Types 1 and 2 – 86 days longer than Bovi-Shield Gold One Shot.<sup>1</sup> Pyramid<sup>®</sup> 5 + Presponse<sup>®</sup> protects against BVD Type 1b for 217 days.<sup>2</sup>

All Vista vaccines are labeled for use in pregnant cows and calves nursing pregnant cows.

Vista Once and Once PMH<sup>®</sup> SQ also provide 16-week protection against *Mannheimia haemolytica* and *Pasteurella multocida* – the only products with duration claims against these respiratory bacteria.

Ask your veterinarian for Vista vaccines.

***It's the only name that matters when protection matters most.***
