

AABP Emerging and Evolving Disease Virtual Conference Instructions

Remember that the presentation times on the online schedule are shown in EASTERN time zone so adjust accordingly.

Zoom links can be found on the schedule [here](#). Note there is a link for the Wednesday June 24 and Thursday June 25 presentations. The blue links on the left are for the LIVE presentations. Make sure to sign in with your FIRST and LAST name.

The green link buttons under each presentation are where you can find the recordings. Registered attendees will have access to the recordings within 24 hours.

Questions can be submitted to presenters using the Q&A feature in Zoom. You can find this at the bottom of your zoom screen (move your cursor there to make the bottom tray appear). If you do not see it, click on the “more” button to see if it is there.

CE certificates are available by going to the AABP website, hover over your name in the upper right-hand corner and select “My CE Certificates”.

If you need assistance, the best way to get me during the conference will be to TEXT me at 419-606-3558. Please include your name when responding.

Please DO NOT share the zoom links or allow non-registered people to watch the conference. This conference is an AABP member benefit – thank you for your membership and your registration.

Please fill out the survey after the conference to provide feedback. This is important for AABP to plan future CE events for our members.
